# A word from the CEO

After seven weeks as President and CEO of AQ Group, it is with great humility and joy that I have the privilege of writing these words to our report for the third quarter of 2018.

I have spent my first weeks in the group visiting more than half of our production units to meet employees, customers and other stakeholders. It has been fun to meet many of the talented employees who carry AQ and make us what we are.

It has also been interesting to take part of all the customer cases that are behind our strong organic and acquisition driven growth.

There is a lot to bring with us in our continued journey. I have seen many fine examples of actionable entrepreneurship that have given us new business, but also things we can improve together, such as capital tied up, delivery capacity and continued efficiency improvements.

It is also good that we can report a positive result in the quarter despite the major extraordinary cost, SEK 66 million we have in connection with the bankruptcy of our subsidiary AQ Segerström & Svensson AB. If we exclude this extraordinary cost, the profit margin before tax is 7.6%, which is a percentage point better than the third quarter last year.

The biggest event in the quarter for AQ Group was that the board of our subsidiary AQ Segerström & Svensson filed an application for bankruptcy on August 20, as there were no preconditions to run the business further. Note 5 and 6 of this quarterly report detail how this event affects our earnings. The operating loss in addition to this, in AQ Segerström & Svensson amounts to SEK 28.8 million, of which SEK 1.7 million in the third quarter. AQ Group supports the bankruptcy administrator on a continuous basis to contribute to the best possible solution for customers, employees and suppliers.

The work to wind down AQ's operations in Thailand continues according to plan and it has moved to one of our units in China. The production in Ludvika has moved to other AQ units in Bulgaria and Sweden. We have also opened a smaller unit in Smedjebacken to be able to competitively carry out production that needs to be close to customer and should not be moved. Operating losses for these two discontinued plants amounts to SEK 23.2 million in 2018, of which SEK 9.9 million in the third quarter.

The organic growth in the quarter comes from both larger existing and new smaller customers. Customer segments that significantly contribute to the growth are marine applications, commercial vehicles, railway, medical technology and material handling. Our units in China, Hungary and Sweden have also succeeded to find new customers to partly compensate the decline in telecom and power generation. Our wiring systems business grows significantly with several different customers.

Our suppliers have increased their prices of raw material during the last years. We have worked hard for a long time to transfer these price increases to our customers. We are slowly starting to see improvements, even if a lot of work remains.

Production is at high pressure in most of our production units. We continue to have challenges with long lead times for components, which sometimes lead to delayed deliveries and additional costs. However, the biggest cost is that it affects our customers' confidence and it's contrary to our value "We are reliable". We are not satisfied, and we work hard to come back to where we want to be. We also work to increase our capacity in the units where we are closest to the capacity ceiling.

The work to reduce capital tied up in inventory and accounts receivable continues. For example, the production unit that carried out our pilot project has managed to stabilize and slightly reduce its inventory

even though production has increased by more than 30%. We continue this project with two other companies in the Group.

### **Acquisitions**

Acquisitions are a significant part of AQ's strategy to strengthen the presence and ability in the product areas and geographical areas where we see opportunities for growth and improved profitability. Another central part of the acquisition strategy is to follow our customers to new geographical regions.

On April 3 we acquired Mecanova Oy with a factory in Nivala, Finland and Mecanova OÜ with a factory in Pärnu, Estonia. Mecanova has a good reputation among the customers, but has suffered with a weak balance sheet. The balance sheet is now improved, and the confidence of the suppliers is increasing. The operations in Estonia is now integrated with our original company in Estonia. It complements AQ's operations in Pärnu in a very good way. We are also happy to get a company on the growing Finnish market.

The acquisition of the B3CG companies in USA and Canada gives us a strong platform for further expansion in North America. What was extra positive was that the acquisition took place in consultation with one of our largest global customers. The companies have developed according to plan during the quarter.

### **Organisation**

AQ's organisation is built on strong local entrepreneurs in each company, who are close to the customers' requirements and real demands. This way we can quickly seize the opportunities that appear no matter of market conditions. This is a strategy we will continue to follow

### **Outlook**

Our guideline is to be a stable, growing and profitable company long term with a profit margin of 8 % and a strong financial position. We have made a big effort and spent a lot of money to get units in order that haven't delivered acceptable results over time. Now we can focus on business with focus on the customers. Our employees and leaders are doing a good job and it will also in the future give new business and a stable profit.

AQ is well positioned for new acquisitions from a financial as well as from a management view. With strong relations to world leading customers and engaged employees we shall work hard with continued growth, cash flow and a stable profit level. An important part of this is our core values and our efforts to be a long term and reliable supplier to leading industrial customers.

*Anders Carlsson  
CEO*

# Group's financial position and results

## Third quarter

Net sales for the third quarter was SEK 1 137 million (923), an increase of SEK 214 million compared to the same period in the previous year. The increase in turnover can be explained by a generally good state of the market, good growth both organically and through acquisitions. The total growth in the quarter was 23.2 %, of which organic growth 8.7 %, growth through acquisitions 9.9 % and currency effects of 4.6 %. The currency effect of 4.6 % corresponds to about SEK 42.3 million and is mainly with the currencies EUR, BGN and PLN. The currencies INR and RSD have had a small negative currency effect during the quarter.

Operating margin (EBIT) in the third quarter was SEK 22 million (64), a decrease of SEK 42 million. The decrease can mainly be explained by non-recurring costs in conjunction with the bankruptcy of Segerström & Svensson AB of SEK 66 million.

Goodwill and other intangible assets have increased during the third quarter with SEK 219 million compared to the third quarter of 2017, an increase due to overvalues in acquisitions, currency translation effects and depreciation of technology and customer relations.

Investments in tangible assets in the quarter in the group were SEK 54 million (25), where the majority were replacement and capacity increasing investments to achieve a more efficient production.

Interest bearing liabilities of the group are SEK 442 million (197) and cash and cash equivalents amount to SEK 102 million (106), which means that the group has a net debt of SEK 340 million. In the same period last year, the group had net debt of SEK 91 million. The increase is mainly due to new loans in conjunction with acquisitions.

Cash flow from operating activities was SEK 39 million (57). The positive cash flow from operating activities is lower than the same period in the previous year. Activities to reduce working capital, mainly to reduce inventories have continued during the quarter but has not given the desired results yet.

Cash flow from investing activities was SEK -47 million (-25), which relates to investments in fixed assets.

Cash flow from financing activities was SEK -27 million (-26) which relates to decreased usage of overdraft facility and amortizations of bank loans.

Equity at the end of the period was SEK 1 737 million (1 580) for the group.

## First nine months

Net sales for the first nine months was SEK 3 451 million (3 002), an increase of SEK 449 million compared to the same period previous year. Increase in net sales can be explained by acquisitions, good market conditions, gained market shares and organic growth. In the first nine months the total growth was 14.9 %, of which organic growth 5.7 %, growth through acquisitions 6.0 % and a currency effect of 3.2 %. The currency effect of 3.2 % corresponds to about SEK 95.5 million and is mainly with the currencies EUR, PLN and BGN. During the first nine months INR, MXN and USD have had a small negative currency effect.

Operating margin (EBIT) in the first nine months was SEK 151 million (225), a decrease of SEK 74 million. The decrease can mainly be explained by non-recurring costs in conjunction with the bankruptcy of Segerström & Svensson AB of SEK 66 million.

Goodwill and immaterial assets have increased during the first nine months with SEK 218 million compared to the beginning of the year. The net change is due to overvalues in acquisitions, currency translation effects and depreciation of technology and customer relations.

The investments of the group in tangible fixed assets in the first nine months were SEK 96 million (78), the major part being replacement and capacity increasing investments to gain a more efficient production.

Interest bearing debts of the group are SEK 442 million (197) and cash and cash equivalents amount to SEK 102 million (106), which means that the group has a net debt of SEK 340 million. In the same period last year, the group had a net debt of SEK 91 million. The increase is mainly due to new loans in conjunction with acquisitions.

Cash flow from operating activities were SEK 109 million (151). Cash flow is lower than the same period in the previous year, mainly due to capital tied up in customer receivables and other receivables. The increase in inventory has been lower than the same period in the previous year and activities to release working capital have continued during the period, but have not given the desired results yet.

Cash flow from investing activities was SEK -207 million (-75), which relates to acquisitions and investments in fixed assets.

Cash flow from financing activities was SEK 53 million (-127) which relates to new bank loan, reduction of operating credit and payment of dividends.

Equity at the end of the period was SEK 1 737 million (1 580) for the group.

## **Significant events during the first nine months**

### **First quarter**

In order to give the respective operations full customer focus and an enhanced P&L responsibility, a new company, AQ Special Sheet Metal AB, acquired the operations in Lyrestad and Pålsboda from AQ Segerström & Svensson AB.

On February 22, 2018, company management of AQ Welded Structures AB called for negotiations with the unions for a restructuring of the company, which has 51 employees.

The Board of Directors of AQ Group has appointed Anders S Carlsson as new President and CEO. Anders will assume the position September 1, 2018, replacing one of AQ's founders, Claes Mellgren. Claes Mellgren is a member of the board.

### **Second quarter**

AQ Group AB signed on April 3, 2018 an agreement to acquire 100% of the shares of Mecanova Oy in Nivala, Finland with the subsidiary Mecanova OÜ in Pärnu, Estonia. The purchase price for the shares was EUR 1.1 million. The takeover took place the same day. Mecanova is a supplier of sheet metal and copper components for demanding industrial customers. The company has net sales of about EUR 17 million and employs about 160 people. The purpose of the acquisition is to extend AQ's customer base, get a presence in Finland and to broaden our offering in sheet metal processing and copper component manufacturing and to obtain synergies with our current factory in Pärnu.

AQ Manufacturing Co., Ltd is started on May 2, 2018 a process to close down the manufacturing site in Samutprakarn, Thailand. The company had 43 employees in Thailand and its turnover was less than one percent of AQ Group's turnover. The background to the closure is that the company has generated losses since the inception in 2015 and that the main customers have had declining sales. The business volumes from customers mainly operating in extremely competitive telecom and consumer electronics market showed negative trends and the company didn't see a profitable future. The manufacturing is being transferred to AQ Components in China.

AQ Group AB signed on May 8, 2018 an agreement to acquire 100% of the shares of B3CG Interconnect Inc. (<http://www.b3cg.com/en/home/>) and its affiliate B3CG Interconnect USA Inc. The purchase price consists of CAD 13.8 million plus an earnout over two years with a maximum of CAD 6 million. The closing took place the same day.

B3CG is a leading supplier of complex electrical harnesses, high voltage cables, and electromechanical assemblies for various industries. The two companies have total net sales of about Can\$ 35 million with a profit margin in line with AQ. They employ about 300 people in their operations in Saint Eustache, Quebec, Canada and in Plattsburgh, New York, U.S.A. B3CG has a long history with experienced management and the company fits well in AQ and our business area Wiring Systems.

### **Third quarter**

On August 20, 2018, the subsidiary AQ Segerström & Svensson AB filed a bankruptcy application. Non-recurring items affecting profit due to the bankruptcy was initially estimated at SEK 70 million. All non-recurring items due to the bankruptcy were charged in the third quarter of 2018 and amounted to SEK 66 million, see Notes 5 and 6.

### **Significant events after the end of the period**

There have been no significant events after the end of the period.

### **Goals**

The goal of the group is continued profitable growth. The Board of directors are not giving any forecast for turnover or profit. Statements in this report can be perceived as forward looking and the real outcome can be significantly different.

The board of directors of AQ Group has set goals for the group. The goals mean that the group is managed towards good profit, high quality and delivery precision with strong growth and a healthy financial risk level. The dividend policy is to have dividends corresponding to about 25 % of profit after tax over a business cycle. However, the Group's financial consolidation must always be considered.

	<b>Goal</b>	<b>Jan-Sep 2018</b>
Product quality	100 %	99.5 %
Delivery precision	98 %	87.0 %
Equity ratio	>40 %	56 %
Profit margin before tax, (EBT %)	8 %	4.2 % (adjusted 6.1 %)

### **Transactions with related parties**

The parent company has a related party relationship with its subsidiaries. There are some sales activities concerning goods between the operating group companies. The parent company is charging a management fee to the subsidiaries. All invoicing is according to market level prices and results in claims and debts between the companies which are settled regularly. There are some long-term loans between the parent company and a few subsidiaries. These loans are given with market level interest rates. Most companies in the group are part of cash pool in the parent company. The companies are charged/given interest rates at market level.

During 2018, AQ Group AB has paid SEK 50.3 million in dividends to its shareholders. There have been no other transactions between AQ and closely related parties which significantly affected the position or result of the company. There are no loans to members of the board of directors nor to anyone in leading positions.

At the annual general meeting on April 26, 2018 it was decided that a yearly fee of SEK 160 000 shall be paid to the members of the board of directors and a fee of SEK 400 000 to the chairman of the board. For the chairman of the Audit Committee, the remuneration shall be SEK 70,000 and to the other members of the Audit Committee, SEK 40,000. For the chairman of the Remuneration Committee, the remuneration shall be SEK 50,000 and to the other members of the Remuneration Committee, SEK 30,000. There are no other remunerations to the board of directors. There is no remuneration paid after a board assignment is completed.

People in management positions are paid a fixed salary and a variable element calculated in % of the group's profit maximized to one-year salary. There are no other benefits in addition to pension benefits for work performed via the employment contract. In individual cases and where there is special justification, the Board shall have the option of deviating from the above guidelines.

## **Risks and uncertainties**

AQ is a global company with operations in fifteen countries. Within the group there are a number of risks and uncertainties of both operational and financial characteristics, which were described in the annual report of 2017. No additional significant risks have been identified since the annual report of 2017 was published. In addition to the commented factors the real outcome can be affected by for example political events, business cycle effects, currency and interest rates, competing products and their pricing, product development, commercial and technical difficulties, delivery problems and large credit losses at our customers.

The risks that are most evident in a shorter perspective are risks related to currency and prices.

Transactions and assets and liabilities in foreign currency are managed centrally within AQ in order to create balance in the respective currency thereby achieving highest possible levelling effect within the group in order to minimize currency differences.

AQ is not buying any direct raw material, but only intermediate goods for further production such as sheet metal of steel and aluminium, cables, insulated wire etc. The risk is minimized through customer agreements with price clauses.

Raw material price risk refers to the change in the price of material and its impact on earnings. The company's purchase of materials to different processes is significant. There is a risk of sharp price increases for raw materials where the Company is not able to compensate price increases, which may affect the Company's earnings negatively.

The group's credit risks are mainly connected to receivables from customers.

The parent company is indirectly affected by the same risks and uncertainties.

## **Future reporting dates**

Year-end report, 2018	February 21, 2019, at 08:00
Interim report Q1, 2019	April 25, 2019, at 08:00

## **Financial information**

The information of this interim report shall be made public according to the Securities Market Act of Sweden. AQ Group AB (publ) is listed on Nasdaq Stockholm's main market.

The information was made public on October 25, 2018 at 08:00.

This report has been briefly reviewed by the company's financial auditors.

Further information can be given by AQ Group AB:

CEO and IR, Anders Carlsson, telephone +46 70-513 42 99, [anders.carlsson@aqg.se](mailto:anders.carlsson@aqg.se) ,  
CFO, Mia Tomczak, telephone +46 70-833 00 80, [mia.tomczak@aqg.se](mailto:mia.tomczak@aqg.se)

Financial reports and press releases are published in Swedish and English. If there are discrepancies between the two, the Swedish version shall prevail. They are available at [www.aqg.se](http://www.aqg.se).

## **Certification**

The Chief Executive Officer certifies that the interim report gives a true and fair overview of the Group's and the parent company's operations, financial position and results and describes material risks and uncertainties facing the parent company and the companies that form part of the Group.

CEO

## **Review report**

To the board of AQ Group AB (publ)

Corp. id. 556281-8830

### **Introduction**

We have reviewed the summary interim financial information (interim report) of AQ Group AB (publ) as of 30 September 2018 and the nine-month period then ended. The Board of Directors and the Managing Director are responsible for the preparation and presentation of this interim report in accordance with IAS 34 and the Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

### **Scope of review**

We conducted our review in accordance with International Standard on Review Engagements ISRE 2410 Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and other generally accepted auditing practices and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not prepared, in all material respects, for the Group in accordance with IAS 34 and the Annual Accounts Act, and for the Parent Company in accordance with the Annual Accounts Act.

# Parent company development

## Parent company

The parent company, AQ Group AB, focuses primarily on managing and developing the Group. As in previous years, the parent company's turnover consists almost exclusively of the sale of administrative services to subsidiaries. There are no purchases of any substance from subsidiaries.

## Summary income statement for the Parent company

## Third quarter

Net sales for the third quarter was SEK 13.7 million (12.7), somewhat higher than the same period in the previous year, because of higher invoicing of management fees (group commons costs). Other external expenses were SEK 4.5 million (3.9).

Personnel costs were SEK 4.6 million (4.7). Operating profit (EBIT) was SEK 5.1 million (4.3).

Net financial items were SEK 11.6 million (11.0) and consisted partly of tax-free dividends from subsidiaries of SEK 69 million (10.0), capital loss of SEK 21.2 million and a cost of SEK 40.1 million for impairment losses, see note 5.

Tax costs of SEK 5.9 million (1.0) is higher than the same period in the previous year. The increased tax expense is due to the fact that the capital loss and write-down of receivables in connection with Segerström & Svensson AB's bankruptcy are not tax-deductible expenses, see note 6.

## First nine months

Net sales for the first nine months was SEK 38.2 million (37.5), similar to the same period in the previous year. Other external expenses were SEK 14.2 million (12.0).

Personnel costs were SEK 13.5 million (15.1). Operating profit (EBIT) was SEK 12.8 million (11.6).

Net financial items were SEK 218.5 million (95.3) and consisted partly of tax-free dividends from subsidiaries of SEK 280.0 million (90.0), capital loss SEK 21.2 million and SEK 40.1 million due to write-down of receivables, see note 5.

Tax costs of SEK 6.7 (3.7) million are higher than the same period in the previous year. The increased tax expense is due to the fact that the capital loss and write-down of receivables in connection with Segerström & Svensson AB's bankruptcy are not tax-deductible expenses, see note 6.

<b>TOTAL EQUITY AND LIABILITIES</b>	<b>1 255 349</b>	<b>925 826</b>	<b>979 471</b>

The change in financial fixed assets compared to the same period in the previous year is due to the acquisitions of Mecanova and B3CG and a reduction of shares in subsidiaries because of the merger of AQ Industrial System AB and AQ Group AB and to devaluation of shares in the subsidiaries in Mexico and India in December 2017. The write-down of shares in connection with the bankruptcy of Segerström and Svensson also affects the financial fixed assets.

Other current receivables are mainly with group companies of SEK 396 million (203).

The change in non-restricted equity compared to third quarter last year is due to retained earnings including profit for the year is higher than the same period last year.

Other provisions consist of additional purchase price.

Interest-bearing current liabilities have increased compared to the same period in the previous year due to acquisitions and consists of short-term bank loans of SEK 285 million, usage of bank overdraft of SEK 112 million and debts to subsidiaries in the cash pool of SEK 185 million.

# Notes

## Note 1. Accounting principles

The summary interim report has been prepared in accordance IAS 34, Interim Financial Reporting, and applicable parts of the Swedish Annual Accounts Act. Information according to IAS 34.16A are presented in the financial reports and their notes as well as in other parts of the interim report. The interim report for the parent company has been prepared in accordance with Swedish Annual Accounts Act, chapter 9 Interim report. For the group and the parent company the accounting and valuation principles applied are the same as used in the latest annual report.

The total sum in tables and calculations do not always sum up of the parts due to rounding differences. The objective is that every interim row shall conform with the original source resulting in rounding differences.

As of July 3, 2016, ESMA's (European Securities And Markets Authority) "Guidelines – Alternative performance measures" are applied. In accordance with these guidelines information about financial numbers have been added that are not defined by IFRS.

During 2018 the group has started to apply IFRS 9 *Financial Instruments* and IFRS 15 *Revenue from Contracts with Customers*.

The transition to IFRS 9 and IFRS 15 has not had any major effect for the group or the parent company. IFRS 15 has added additional information which is shown together with business segments in note 2.

IFRS 9 includes rules for classification and valuation of financial assets and liabilities, impairment of financial instruments and hedge accounting. The standard introduces among other things an impairment model based on expected credit losses instead of actual credit losses.

IFRS 15 builds on the principle that revenue is recognized when the customer gets control of the sold goods or service and replaces the earlier principle when revenue is recognized when risks and benefits have transferred to the buyer. IFRS 15 is also clearer in identifying the performance obligations in customer contracts.

IFRS 16 Leases will replace IAS 17 Leases on January 1, 2019. With IFRS 16, all leases will be accounted for in the group's balance sheet except for leases of lesser value and contracts with a lease period of less than 12 months. IFRS 16 is estimated to influence the group's balance sheet total with maximum 10%.

## Note 2. Segment reporting and breakdown of revenue

The Group operates in two business segments: *Component*, which produces transformers, wiring systems, mechanical components, punched sheet metal and injection-moulded thermoplastics and *System*, which produces systems, power and automation solutions and assembles complete machines in close collaboration with the customers.

### Third quarter

For the segment Component, the total net sales for the third quarter was SEK 934 million (781), of which SEK 850 million (700) is external sales. The increase of the external sales of totally SEK 150 million is due to high demands from our customers and our acquisitions.

For the segment System, the total net sales for the third quarter was SEK 321 million (261), of which SEK 287 million (223) is external sales. The increase of the external sales of SEK 64 million is due to increased demands from our customers.

Operating profit (EBIT) in the third quarter was SEK 5 million (34) for Component, which was SEK 29 million lower than the same period last year. The reason for the lower profit in Component is mainly

due to costs in conjunction the bankruptcy of AQ Segerström & Svensson. Operating profit (EBIT) for System was SEK 27 million (25), which was SEK 2 million better than the same period last year.

In the column "Unallocated and eliminations" there are items which have not been allocated to the two segments, parent company and group eliminations.

The turnover divided among geographical market in the third quarter: Sweden 41% (48), other European countries 45% (40) and other countries 14% (12).

### **First nine months**

For the segment Component, the total net sales for the first nine months was SEK 2 953 million (2 591), of which SEK 2 674 million (2 347) is external sales. The increase of the external sales of totally SEK 327 million is due to high demands from our customers and our acquisitions.

For the segment System, the total net sales for the first nine months was SEK 910 million (778), of which SEK 777 million (655) is external sales. The increase of the external sales of SEK 122 million is due to increased demands from our customers.

Operating profit (EBIT) in the first nine months was SEK 108 million (161) for Component, which was SEK 53 million lower than the same period last year. The reason for the lower profit in Component is mainly due to costs in conjunction the bankruptcy of AQ Segerström & Svensson of SEK 66 million. Operating profit (EBIT) for System was SEK 49 million (55), which was SEK 6 million lower than the same period last year due to projects with lower profitability than last year.

In the column "Unallocated and eliminations" there are items which have not been allocated to the two segments, parent company and group eliminations.

The turnover divided among geographical market in the first nine months: Sweden 43% (49), other European countries 45% (40) and other countries 12% (11).

## Note 4. Acquisitions

AQ's strategy is to grow in both segments. During the period January to September some minor and two larger acquisitions were made.

Acquisitions during the first half year 2018:

Date	Acquisition	Net sales, SEK million*	Number of employees*
April 3, 2018	Mecanova OY	138,4	120 Finland
	Mecanova OÜ	34,6	45 Estonia
May 8, 2018	B3CG Interconnect Inc.	158,4	180 Canada
	B3CG Interconnect USA Inc.	81,6	120 USA

\* Net sales and number of employees at the time of acquisition

### Minor acquisitions

March 1, 2018      Teknoprodukter Finmekanik Vännäs AB

#### Mecanova

On April 3, 2018 AQ Group acquired 100 % of the shares in the private company Mecanova Oy in Nivala, Finland with its subsidiary Mecanova OÜ in Pärnu, Estonia. The purchase price was MEUR 1.1 million in cash. In conjunction with the purchase it was agreed that AQ Group shall pay additionally EUR 500 thousand and make a shareholder contribution of EUR 2.1 million.

The company has established an acquisition analysis, which shows consolidated overvalues of about EUR 6.9 million divided in customer relations EUR 0.9 million, technology EUR 2.3 million, goodwill EUR 4.3 million and a deferred tax debt of EUR 0.6 million. The depreciation rate is estimated to 10 years for the customer relations and 10 years for the technology. The estimated goodwill value of EUR 4.3 million includes synergy effects in the form of more efficient production processes and the technical competence of personnel. No part of the goodwill is expected to be tax deductible. There were SEK 1.2 million of acquisition related expenses in conjunction with the acquisition. Operating receivables are taken at their gross value, which correspond to real value. The acquisition was financed with existing credits.

During the period April to September the acquired companies contributed with SEK 93 million to the group's turnover and SEK 0.4 million to the profit after tax. If the acquisition had been made on January 1, 2018, i.e. included the first quarter, management is estimating that the group's sales would have been SEK 55 million higher and the profit would have been SEK 3.2 million higher for the first nine months of 2018.

#### B3CG

AQ Group AB signed on May 8, 2018 an agreement to acquire 100% of the shares in B3CG Interconnect Inc. and its subsidiary B3CG Interconnect USA Inc. The purchase price was CAD 13.8 million plus an earnout over two years of maximum CAD 6 million.

The company has established an acquisition analysis, which shows consolidated overvalues of about CAD 17.3 million divided in customer relations CAD 4.7 million, technology CAD 5.7 million, goodwill CAD 9.6 million and a deferred tax debt of CAD 2.8 million. The depreciation rate is estimated to 10 years for the customer relations and 10 years for the technology. The estimated goodwill value of CAD 9.6 million includes synergy effects in the form of more efficient production processes and the technical competence of personnel. No part of the goodwill is expected to be tax deductible. There were SEK 0.9 million of acquisition related expenses in conjunction with the acquisition. Operating receivables are taken at their gross value, which correspond to real value. The acquisition was financed with a new bank loan.

During the period May to September the acquired companies contributed with SEK 81 million to the group's turnover and SEK 2.2 million to the profit after tax. If the acquisition had been made on January 1, 2018, i.e. included the first quarter and the month of April, management is estimating that the group's

sales would have been SEK 70 million higher and the profit would have been SEK 5 million higher for the first nine months of 2018.

## Note 6. Effective tax rate

SEK thousands	Group		Parent company	
	Jul-Sep 2018	Jan-Sep 2018	Jul-Sep 2018	Jan-Sep 2018
<b>Specification of recorded tax:</b>				
Profit before tax	21 239	145 047	16 800	231 315
Tax calculated according to tax rate in Sweden 22%	-4 673	-31 910	-3 696	-50 889
<i>Tax effect due to:</i>				
Non-deductible expenses	-13 110	-14 853	-13 486	-13 540
Non-taxable income	-255	1 144	15 223	61 647
Effect of tax rates in foreign operations	3 039	13 946	-	-
Change in non-recorded tax loss carryforwards	-1 568	-4 139	-	-
Other	-252	-217	-	-
	<b>-16 819</b>	<b>-36 029</b>	<b>-1 959</b>	<b>-2 782</b>
Withholding tax on dividends	-3 961	-3 961	-3 961	-3 961
<b>Tax recorded for the period</b>	<b>-20 780</b>	<b>-39 990</b>	<b>-5 920</b>	<b>-6 743</b>
<i>Recorded effective tax rate</i>	<i>-97,84%</i>	<i>-27,57%</i>	<i>-35,24%</i>	<i>-2,92%</i>

The deviating effective tax rate is primarily attributable to non-deductible expenses relating to the capital losses in connection with bankruptcy in the subsidiary Segerström & Svensson and losses of the financial receivables held by the parent company to the subsidiary. The tax effect amounts to SEK 12.9 million in the Group and in the parent company by SEK 13.5 million. In addition, the Group cannot utilize the losses in the subsidiary during the year from a tax perspective. The parent company's non-taxable income relates primarily to dividends from subsidiaries.

## **Note 7. Financial instruments**

Financial instruments that are shown in the balance sheet include on the assets side mainly cash or cash equivalents, receivables from customers and other receivables. On the liabilities side they consist mainly of payables to suppliers, other payable and credit debts.

Fair value is not separately shown as it is our assessment that the values shown are an acceptable estimation of the real value because of the short terms. Fair value of assets is established from market prices. Fair value is based on the listing at brokers. Similar contracts are being traded on an active market and the prices are reflecting actual transactions of comparable instruments.

The Group is only in exceptional cases using derivatives to reduce currency risks and it has not had any derivatives during the year.

Additional purchase prices belong to valuation level 3 and have been valued at the amount they are estimated to turn out, based on terms in the acquisition agreements on future cash flows.

## **Note 8. Events after end of the reporting period**

Information about events after the end of the reporting period are presented on page 7.

### Operating margin, EBIT %

Calculated as operating profit divided by net sales.

This key figure shows the achieved profitability in the operative business of the company. Operating margin is a useful measure to follow up profitability and efficiency of the business before deduction of tied up capital. The figure is used internally for controlling and managing the business as well as a benchmark towards other companies in the industry.

### Profit margin before tax, EBT%

Calculated as profit before tax divided by net sales.

This key figure shows the profitability of the business before tax. Profit margin before tax is a useful measure to follow up profitability and efficiency including tied up capital. The figure is used internally for controlling and managing the business as well as a benchmark towards other companies in the industry.

**Liquid ratio, %**

Calculated as current assets (excl. inventory) divided by current liabilities.

This key figure reflects the company's short-term solvency as it sets the company's current assets (except inventory) in relation to the short-term liabilities. If the liquid ratio exceeds 100%, it means that the assets exceed the liabilities in question.

**Debt/Equity ratio, %**

Calculated as adjusted equity divided by balance sheet total.

This key figure reflects the company's financial position and its long-term solvency. To have a good equity ratio and thus a strong financial position is important for being able to manage business cycles with varying sales. To have a strong financial position is also important for managing growth.

**Return on total assets, %**

Calculated as profit/loss after financial items divided by the average balance sheet total.

This key figure also shows the achieved profitability in the operative business. This number complements the operating margin as it includes tied up capital. It means that the number gives information on the return the business is given in relation to the capital tied in it. (Financial investments and cash and cash equivalents are also considered and the profit they give in the form of financial income.)

**Return on equity after tax, %**

Calculated as profit/loss after tax divided by average equity including minority interest.

This is a key figure showing the return of the capital that the owners have invested in the company (including retained earnings) after other stakeholders have received their dividends. This key figure shows how profitable the company is for its owners. This return also has significance for the company's opportunities to grow in a financial balance.

**Operating profit, SEK thousands**

Calculated as the profit before tax and financial items.

Operating profit shows the result generated by the operative business and is used together with operating margin and return on total assets for evaluating and managing the operative business.

**Profit before tax / Profit after financial items (EBT), SEK thousands**

Calculated as the profit before tax.

The key figure shows the result generated by the operative business and financial income taking into account payments to creditors for the capital they are contributing to finance the business. The figure shows remaining profit to the owners taking into account that part of it will be deducted for tax payments.

**Net cash/Net debt, SEK thousands**

Calculated as the difference between interest bearing debts and cash and cash equivalents.

This key figure is reflecting how much interest-bearing debts the company has taking into account in cash and cash equivalents. The figure gives a good picture of the debt situation. Net cash means that cash and cash equivalents exceeds interest bearing debts. Net debt means that interest bearing debts exceed cash and cash equivalents.

**Growth, %**

The company is using two key figures to describe growth; 1) organic growth and 2) growth through acquisitions.

Organic growth is calculated as the difference between the net sales of the current period and the net sales of the previous period, excluding currency effect and net sales of acquired units.

Organic growth in % is calculated as the organic growth divided by the net sales in the same period in the previous year.

Growth through acquisitions is calculated as net sales of acquired companies divided by the net sales in the same period in the previous year.

Growth is an important component in the company's strategy as growth is required to be a leading actor in the markets where the company is operating. Growth is partly through acquisition and partly organic. It's important to follow up and to present the different ways of achieving growth as it is two different ways to grow. Acquisitions are done when opportunities are given to expand the business in a certain geographic market or in a certain product area (in line with the company's strategic plan). Organic growth often has the character of a continued expansion within the existing operations.

### **Dividend per share, SEK**

Dividend per share is decided at the Annual General Meeting where the annual report is approved for the fiscal year. Number of shares are the thousands of shares issued at the set date for payment of dividends.

### **AQ in brief**

AQ is a leading supplier to demanding industrial customers and is listed on Nasdaq Stockholm's main market.

The Group consists mainly of operating companies each of which develop their special skills and in cooperation with other companies, striving to provide cost effective solutions in close cooperation with the customer.

The Group headquarter is in Västerås, Sweden. AQ has, on December 31, 2017, in total about 5,500 employees in Sweden, Bulgaria, China, Estonia, Hungary, India, Italy, Lithuania, Mexico, Poland, Serbia and Thailand.

In 2017 AQ had net sales of SEK 4.0 billion and the group has since its start in 1994 shown profit every quarter.

# WE ARE RELIABLE

Customer focus

**Customer always comes first** By making our customers' life easy and by giving the "little extra" we will create a long term partnership.

Simplicity

We do our daily work without complexity and bureaucracy. Everything we do adds customer value.

Entrepreneurial business

Companies within the AQ Group shall, based on AQ core values, run their business as entrepreneurs and strive for profitability and growth.

Courage and respect

We have the courage to go our own way, we stand up for our positions, are prepared to make tough decisions, give constructive feedback and admit own mistakes. We treat others as we like to be treated ourselves.

Cost efficiency

We use the most cost efficient way to fulfill our customers' demands and work with continuous improvements. Our business is production, we have a long term view and we fully commit ourselves to live up to customer expectations for quality, delivery performance, technological development and service.
